NOAA, Washington Sea Grant Offering Two Sessions of Science Camp

Registration is now open for NOAA Science Camp in Seattle this summer. Again this year, Washington Sea Grant (WSG) and the National Oceanic and Atmospheric Administration (NOAA) are offering seventh and eighth graders two camp sessions—July 12-16 and July 19-23.

Both sessions will feature a variety of NOAA science activities. Campers will try on dive gear and simulate a dive in a hyperbaric chamber, assess fish populations, analyze water samples, practice marine mammal identification techniques, learn to read navigation charts and more.

The fee for either of the five-day NOAA Science Camps is $225. Scholarships are available.

To register, or for more information about camp and scholarships, visit www.wsg.washington.edu/education/events/noaa.html or contact Julie Hahn, WSG Education Coordinator, at 206-685-9117 or noaacamp@u.washington.edu.

Based at the University of Washington, Washington Sea Grant provides statewide marine research, outreach and education services. The National Sea Grant College Program is part of the National Oceanic and Atmospheric Administration (NOAA), U.S. Department of Commerce. http://www.wsg.washington.edu/
